

It is estimated that 821 million
people - one in nine - go to bed on an
empty stomach each night. Regularly not
getting enough nutritious food to
maintain a healthy and active life.

If you offer your food to the hungry and satisfy the needs of the afflicted, then your light shall rise in the darkness.

Isaiah 58:10

God, **let our light rise in the darkness** as we strive to eradicate the epidemic of hunger.

80 percent of the world's extreme poor live in rural areas.

Most are either smallholder farmers or landless farm workers, struggling to provide for their families in the face of:

- Land degradation
- Lack of access to water and seeds
- Land grabbing
- Gender inequity
- Climate change

The key to solving hunger is to address the root causes of hunger with transformational development projects that give a hand-up to our brothers and sisters in need.
